Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 March 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9 and 14-35, and 47 drawn to an isolated polynucleotide encoding polypeptide, and methods of using said polynucleotide.

Group II, claim(s), 10-13 drawn to probes for interrogating nucleic acids.

Group III, claim(s) 36-46, drawn to isolated polypeptides and the antigen binding molecule.

Group IV, claim(s) 48, drawn to an antigen binding molecule.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the invention of claim 1, drawn to an isolated polynucleotide that hybridizes to a nucleic acid having at least 30% identity to SEQ ID NO: 1 or 3, is known in the prior art as evidenced by the multiple of references cited in International Search Report submitted by Applicant On 03/24/06 . Therefore, there is no common special technical feature that links the invention of Group I to the invention of Group II, Group III or Group IV.

In addition, The special technical feature of Group I that is not recited in any of Groups II-IV is considered to be the plant transformation methods and the encoding polynucleotide.

The special technical feature of Group II that is not recited in any of Groups I and III-IV is considered to be the probe for interrogating nucleic acids.

The special technical feature of Group III that is not recited in any of Groups I-II and IV is considered to be the isolated polypeptide and antigen binding molecule.

Art Unit: 1638

The special technical feature of Group IV that is not recited in any of Groups I-III is considered to be the antigen binding molecule.

Therefore, inventions I-IV lacks unity.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
